

## Hospital Personnel Report

Generated on: 5/1/2023

Generated by: Hirwa Jean Eric

This report contains as summarized overview and list of hospital personnel who have access to this medical file sharing system.

The following personnel gained access to the system through their respective hospitals of service. The hospital admin is responsible for adding new personnel, activating, deactivating or suspending personnel accounts to ensure a secure use of patient information.

These personnel include: **Doctors, Lab technicians, nurses, and hospital admins.** Every user of the system has limited access to the system hence performing activities related to their given role.

### General Statistics

Total	Doctors	Nurses	Lab technicians	Hospital admins
25	8	5	4	8

The table bellow shows a list of all personnel. It also shows their roles, their user codes, and the status of their codes, and the time at which they joined the system.
