PERSONAL PROFILE

I have finished my studies of bachelor's degree in the department of Information Technology, majoring in software engineering, and I am about to present my final year project.

I have experience working in the Software development sector by way of an internship with a major IT firm, which has helped me develop technical capabilities in data engineering and programming.

I have consistently proven my ability to meet deadlines and achieve project objectives, solve mission-critical problems and prioritize crucial tasks while maintaining the high standards expected of my role.
